NOTIFICATIONS

Fort St. George, September 16, 1936
[G.O. No. 1637, Public (Services).]

No. 636.—

In exercise of the powers conferred by clause (c) of section 60 of the Prisons Act, 1894 (Act IX of 1894) and rule 54 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council hereby makes the following amendment to the rules contained in Part II of the Madras Jail Manual in supersession of all previous rules and orders on the subject in so far as they relate to such members of the subordinate establishments of Jail Department as are specified in column (1) of the schedule referred to in rule 120-A of the rules contained in the said Part II.

AMENDMENT.

For rules 119 to 123 of the said rules the following rules shall be substituted, namely:—

"119. The following penalties may for good and sufficient reason be imposed upon officers in the subordinate establishment of the Jail Department, namely:—

(a) Censure.
(b) Fine.
(c) Withholding of increments or promotion, including stoppage at an efficiency bar.
(d) Reduction to a lower post or time-scale, or to a lower stage in a time-scale whether in the same service or in another subordinate service.
(e) Recovery from pay of the whole or part of any pecuniary loss caused to Government by negligence or breach of orders.
(f) Suspension.
(g) Removal from the civil service of the Crown, which does not disqualify from future employment.
(h) Dismissal from the civil service of the Crown which disqualifies from future employment.

Explanation.—The discharge—

(a) of a person appointed on probation during the period of probation, as defined in the rules applicable to him; and

(b) of a person engaged under contract, in accordance with the terms of his contract,

does not amount to removal or dismissal within the meaning of this rule.

NOTE.—(i) The infliction of very heavy fines and frequent imposition of small fines shall be avoided. Fine shall not be inflicted on Jailers and Deputy Jailers except in very special circumstances.

(ii) Suspension as a specific punishment shall be resorted to only in extraordinary circumstances.

(iii) Any subordinate against whom a succession of Officers is recorded shall render himself liable to reduction, removal or dismissal.

120. Without prejudice to the provisions of the Public Servants Inquiries Act, 1850, an order of dismissal, removal, reduction or recovery from pay of the whole or part of any pecuniary loss caused to Government by negligence or breach of orders shall be passed on an officer (other than an order based on facts which have led to his conviction in a criminal court) unless he has been informed in writing of the grounds on which it is proposed to take action, and has been afforded an adequate opportunity of defending himself. The grounds on which it is proposed to take action shall be reduced to the form of a definite charge or charges, which shall be communicated to the person charged, together with a statement of the allegations on which each charge is based and of any other circumstances which it is proposed to take into consideration in passing orders on the case. He shall be required, within a reasonable time, to put in a written statement of his defence and to state whether he desires to be heard in person. If he so desires or if the authority concerned so direct, an oral inquiry shall be held. At that inquiry oral evidence shall be heard as to such of the allegations as are not admitted, and the person charged shall be entitled to cross-examine the witnesses, to give evidence in person and to have such witnesses called, as he may wish, provided that the officer conducting the inquiry may, for special and sufficient reason to be recorded in writing, refuse to call a witness. The proceedings shall contain a sufficient record of the evidence and a statement of the findings and the grounds thereof.

This rule shall not apply where the person concerned has absconded, or where it is for other reasons impracticable to communicate with him. All or any of the provisions of the rule may, in exceptional cases for special and sufficient reasons to be recorded in writing, be waived, where there is a difficulty in observing exactly the requirements of the rule and those requirements can be waived without injustice to the person charged.

Note.—In investigating charges against Jail officers, Superintendents should bear in mind the following principles :—

(1) The first statements made by eye-witnesses, accused and witnesses are the most valuable. They should, therefore, in no case be at once written down verbatim. Statements made later, when there has been time to collect a story, are often positively valueless.

(2) In all grave cases, Superintendents should record statements themselves and not leave the inquiry to filter through the Jailor's Report Book.

(3) All statements should be taken down in the exact words of the complainant, witness, or accused, and should be read over to him signed and dated.

120-A. The authority which may impose any of the penalties prescribed in rule 119 on the officers specified in column (i) of the schedule to these rules, shall be the authority specified in the corresponding entry in column (ii), (iii), (iv), (v), (vi) or (vii) whichever is relevant, or any higher authority:

Provided that where in any case a competent authority has imposed or declined to impose a penalty under this rule, a lower authority shall have no jurisdiction to proceed under this rule in respect of the same case.

Provided further that no person may be removed or dismissed from the service by any authority subordinate to that by which he was appointed.

Explanation (1).—The fact that a lower authority has imposed or declined to impose a penalty in any case shall not debar a higher authority from exercising its jurisdiction under this rule in respect of the same case.

Explanation (2).—The order of a higher authority imposing or declining to impose in any case a penalty under this rule shall supersede any order passed by a lower authority in respect of the same case.

120-B. An officer of the said subordinate establishment shall be entitled to appeal from an order imposing on him any of the penalties specified in rule 119—

(a) if such order was passed by an authority specified in the relevant columns of the schedule, to the authority specified in the last column thereof;

(b) if such order was passed by an authority (other than the Local Government) higher than that specified in the relevant column of the schedule, to the next higher authority to whom the former authority is administratively subordinate, and

(c) if such order was passed by the Local Government to the Governor.

120-C. In the case of an appeal against an order imposing any penalty specified in rule 119 the appellate authority shall consider—

(a) whether the facts on which the order was based have been established;

(b) whether the facts established afford sufficient ground for taking action, and

(c) whether the penalty is excessive, adequate or inadequate, and after such consideration shall pass such order as it thinks proper.

120-D. An authority from whose order an appeal is preferred under rule 120-B shall give effect to any order made by the appellate authority.

120-E (a) Every person preferring an appeal shall do so separately and in his own name.

(b) Every appeal preferred under rule 120-B shall contain all material statements and arguments relied on by the appellant, shall contain no disrespectful or improper language and shall be complete in itself. Every such appeal shall be submitted through the head of the office to which the appellant belongs or belonged and through the authority from whose order the appeal is preferred.

(c) No appeal shall be considered by the appellate authority if it was not preferred within six months after the date on which a copy of the order appealed against was communicated to the appellant and no reasonable cause is shown for the delay.

Explanation.—Where the person concerned has absconded or where it is for any other reason impracticable to communicate with him, the period of six months referred to in this rule shall be counted from the date of the order appealed against.

120-F. An appeal may be withheld by an authority not lower than the authority from whose order it is preferred, if

(a) it is an appeal in a case in which under these rules no appeal lies; or

(b) it does not comply with the provisions of rule 120-E, or

(c) it is a repetition of a previous appeal and is made to the same appellate authority by which such appeal has been decided and no new facts or circumstances are adduced which afford grounds for a reconsideration of the case:

Provided that in every case in which an appeal is rejected the appellant shall be informed of the fact and the reasons for it:

Provided further that an appeal withheld on account of the failure to comply with the provisions of sub-rule (b) of rule 120-E may be resubmitted at any time within one month of the date on which the appellant has been informed of the withholding of the appeal, and if resubmitted in a form which complies with those provisions shall not be withheld.

120-G. Every appeal which is not withheld under these rules shall be forwarded to the appellate authority by the authority from whose order the appeal is preferred with an expression of opinion.

120-H. A list of appeals withheld under rule 120-F, with the reasons for withholding them, shall be forwarded quarterly by the withholding authority to the appellate authority.

120-I. The appellate authority may call for an appeal admissible under these rules which has been withheld by a subordinate authority and may pass such orders thereon as it considers fit.

120-J. No appeal shall lie against the withholding of an appeal by a competent authority.

120-K. The authority by whom an order imposing a penalty may be reversed or altered in cases in which an appeal is preferred shall be the appellate authority specified in rule 120-B or any higher authority.

121. Nothing in these rules shall operate to deprive any person of any right of appeal which he would have had if these rules had not been made, in respect of any order passed before they came into force. An appeal pending at the time when, or preferred after, these rules came into force shall be deemed to be an appeal under these rules, and rules 120-C and 120-D shall apply as if the appeal were against an order appealable under these rules.

122. Every order of punishment imposed on an officer shall be recorded in the defaulter book in form 21.

Explanation.—Mere admonition is not a punishment.

123. Every officer against whom an order imposing a penalty under rule 119 is passed shall be given a copy of the order together with the reasons therefor.

Rules for the Navigation of the Pullaru canal between Boddapad and Wayyuru.

Navigation will be permitted between the 10th June and 28th February of each year for passenger and light cargo boats in the Upper Pullaru Canal, Kistna Eastern Delta, between the Boddapad Regulator and the Wayyuru Weir—7 miles.

2. The maximum length of the vessel shall not exceed 40'; the tonnage 5 tons and the draught (laden) 2' 0".

3. No loading and unloading of goods nor boarding and landing of passengers shall be permitted within a furlong above or below the revetments adjoining the masonry works.

4. Only boats registered and licensed under the Navigation Rules for the Kistna Delta canals will be allowed to ply in the canal.

5. Special licences in addition to those issued under the Navigation Rules referred to must be obtained from the Executive Engineer, Kistna Eastern Division, for permission to use the canal. The Executive Engineer shall decide what boats in each year shall be given this concession.

6. Boats shall not be hauled up on the banks for transference from the reach to the Masulipatam canal or the Pullaru Canal below Wayyuru Weir except with the permission of the Subdivisional Officer, Bandar Subdivision. When such permission is given, the boat must be hauled up at a point beyond the revetments abutting and below the adjacent masonry works.

7. The Navigation Rules republished with Public Works and Labour Department Notification No. 35, dated 5th September 1933, at pages 9–38 of the Supplement to Part I of the *Fort St. George Gazette*, dated 5th September 1933 and as subsequently amended shall apply to this canal in so far as they are applicable.

8. Permission to navigate the canal will be cancelled after a week's notice if it is found by any officer of the Public Works Department not lower in rank than the Subdivisional Officer, that any damage is being done to Government property.

9. Navigation in this canal will be permitted only on the clear understanding that on no account will water be let down solely for navigation as apart from the demands for irrigation.

10. In times of scarcity when only a proportionate supply is allowed in the canal, no extra water will be allowed to facilitate navigation.

11. In all cases, it is to be clearly understood that navigation in the canal is permitted only as a concession and it must always give place to the demands of irrigation. No claim of any kind will be admitted on account of the closing of the canal or of insufficient depth for navigation.

This security deposit together with the earnest money and the amount withheld according to clause 24 of the standard preliminary specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of this contract. If a cash security deposit is paid by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division Officer on the date fixed in the written intimation from such officer or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign in the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume as token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Central Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He shall also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specification, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of conveyance, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with:—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.
(9) Responsibilities and liabilities of contractors.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alteration by omission, deduction, or addition at the discretion of the Executive Engineer, Kistna Central Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule and the rates shall be in rupees, annas, and in sums of three pies. The rates shall be written both in words and figures and the units in words. The tenderer should check up the totals of each item and the grand total of the whole abstract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract such lump sum agreement with the total amount of schedule. The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or superscription of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificate of the value of work done, will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor:—

Period after date of commencement.	Percentage of work complete (based on contract lump-sum amount).
Three months	20 per cent.
Six months	40 "
Nine months	70 "
Twelve months	100 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. Separate payment will not be made for baling, pumping, shoring or other incidental works found necessary for dewatering and protecting foundations during execution. These charges shall be included in the unit rates for the respective works.

17. Seigniorage will not be levied on materials quarried from Government quarries.

The balance of 159 tons (431 tons *minus* 272 tons) has not yet been received and classified. Classification will be completed before the date of sale.

NOTE.—A detailed list showing the actual quantities in each class that will be offered for sale will be given to each bidder before the commencement of the sale.

2. The wood has been classified according to the classes noted above. Intending purchasers are advised to inspect in advance, the lots put up for sale, but they must accept the classification made at the depot as final.

3. The various classes have been stored in the sandalwood godown in lots of 10, 15 and 20 tons for convenience, but the lots as exposed will not constitute an actual lot for which bids will be accepted. Each class of wood will be offered for sale separately in lots of 20, 15 or 10 tons or less if convenient, such lots merely consisting of a certain quantity of the class of wood thus being sold. Bids will be per ton of each class of wood.

4. The sale will be subject to confirmation by the Conservator of Forests, Salem Circle, who does not bind himself to accept the highest or any bid.

5. Before being allowed to bid, each intending bidder must pay an earnest money deposit of Rs. 1,000. If paid in cash immediately before the sale, this should preferably be in the form of Madras notes for Rs. 1,000 or Rs. 500. A receipted Government treasury chalan for the amount will also be accepted. In the case of intending bidders, who have previously bought sandalwood from the Forest department, a cheque on the Imperial Bank of India for the amount will be accepted, but the discretion to accept such cheques rests entirely with the officer conducting the sale.

6. If two or more persons in partnership attend the sale with the intention of purchasing wood jointly, only one member of the partnership will be recognised for purpose of bidding and the deposit will be accepted in his name.

7. The earnest money deposit of unsuccessful bidders will be returned immediately after the sale is over, and that of successful bidders will be credited towards the first instalment of the purchase price.

8. Each purchaser shall, immediately a lot is knocked down to him, sign his name at the foot of the sale list, in the column provided for the purpose, and such signature will be held as an admission on his part of his having purchased that particular lot and of having accepted the conditions of the sale notice.

9. Immediately the sale is over, each purchaser, if his offer for any particular lot has been accepted by the Conservator of Forests, will be furnished with a memorandum showing the total amount due from him. He shall remit 25 per cent of the amount, less the earnest money deposit, into the Imperial Bank of India at Vellore or Madras, within fifteen days of the confirmation of the sale and another 25 per cent before the 6th January 1937, the balance of 50 per cent being paid on or before 10th February 1937 or against delivery, whichever is earlier. Should any purchaser fail to make the necessary remittances by the due dates, the money already remitted will lapse to Government and the District Forest Officer will be at liberty to resell the wood in

question at the risk of the purchaser who shall be liable for any loss, but shall not participate in any profit which may arise by the resale

10 After 50 per cent of the entire sale value has been paid to the credit of the Forest department delivery of the sandalwood shall be made to the purchaser provided that until full payment has been made a quantity of wood equivalent to 25 per cent of the full sale value shall remain unremoved, but paid for.

11. On the purchaser's presenting chalans as proof that 50 per cent of the entire sale value has been paid, a proportion of the wood purchased will be weighed in his or his agent's presence and the quantity handed over to him as provided for in condition 10 supra If, however, proof is produced that the entire sale value has been paid, the whole sandalwood purchased will be weighed and handed over. The purchaser must take delivery of and remove the whole of the wood sold to him on or before the 23rd February 1937.

Should any excess over the quantity paid for be found in the quantity purchased when weighing at the time of delivery, the excess will be paid for by the purchaser at the rate at which it was originally purchased before effecting removal. If any one purchaser has purchased more than one lot or class and if there is any excess in one lot or class and deficit in the other, when weighing at the time of delivery on a particular day, the value of the deficit noticed calculated on the rate at which the main lot or class was sold will be adjusted towards the value of the excess quantity noticed in the other lot or class as the case may be, and the balance, if any, still due from the purchaser will be collected before permitting him to remove the quantity delivered during the day. If, however, the net quantity delivered results in a deficit on account of drayage over the recorded quantity at the time of sale, the value of the deficit quantity at the purchased rate will be refunded as due course.

12. The accepted bidders, when deputing their agents to take delivery, must furnish each agent with a power-of-attorney duly stamped and bearing the signature of the person to be deputed. A copy of the power-of attorney must also be sent to the District Forest Officer by post, with four specimen signatures of the agent Failing this, delivery may be refused pending verification, in which case the delay will count against the accepted bidder

13. No further cleaning or classification of sandalwood will be undertaken by the Forest department nor will purchasers be allowed to clean any wood previous to weighment. The classification, cleaning and weighment as determined by the Forest department, must be accepted.

14 After the wood has once been weighed and handed over, if the purchaser fails to remove all the wood within the periods allowed in clause 11 demurrage will be charged at the rate of Rs. 2 per ton per diem from the last date fixed for delivery until the wood is finally removed

15. No sandalwood shall be removed from the depot till a license to remove it signed by the officer of the Forest department, who delivered the wood, shall have been returned and till every piece of sandalwood that can be stamped bears the department's 'sale hammer' mark

16. The officer conducting the sale shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

17. The wood purchased by each purchaser shall be in the depot at the purchaser's risk from the date of sale until it is removed.

18. The contractor shall bear the cost of taking delivery of sandalwood.

19. Each intending bidder unless specially exempted by the Conservator of Forests, Salem Circle, Salem, on an application made in writing at least fifteen days before the date of sale must produce a solvency certificate signed by a responsible Revenue Officer of the district to which he resides; and the District Forest Officer holding the sale may refuse to allow any bidder not so exempted to bid beyond the amount guaranteed in such certificates.

20 Any supplementary conditions that may be found necessary will be added and read out at the time of auction.

21. The full quantity of wood advertised for sale will not necessarily be put up to auction.

22 Further particulars can be had on application to the District Forest Officer, Vellore West Division, Tirupattur, North Arcot.

MADRAS PORT TRUST.

AUDIT REPORT ON THE ACCOUNTS OF THE MADRAS PORT TRUST FOR THE YEAR 1935-36.

Letter from P. K. WATTAL, Esq., M.A., Accountant-General, Madras, and S. C. SEN, Esq., B.A., B.L., LL.B., A.C.A., Examiner, Outside Audit Department, Madras, Auditors of the Madras Port Trust, to the Trustees of the Port of Madras, dated Fort St. George, the 4/10th August 1936, No. O.A. 12-A-80-923.

[Audit report on the accounts of the Madras Port Trust for the year 1935-36.]

We have the honour to report that the Revenue, Capital and Minor Accounts of the Madras Port Trust for the year 1935-36 have been audited under the rules prescribed by the Auditor-General and with reference to the rules and regulations laid down from time to time by the Madras Port Trust Board and the Government of Madras.

2. The cash and security balances at credit of the Revenue, Capital and other minor accounts on the 31st March 1936, have been verified with pass books, safe custody receipts of the Imperial Bank of India, Madras, and with the short term deposit receipts of the Imperial Bank of India, and the Chartered Bank of India, Australia and China, Madras.

3. The market value of the Government securities on 31st March 1936, held on account of the different accounts of the Trust and detailed in Appendix X to the Administration Report for 1935-36, has also been verified.

The securities purchased for the several funds under the control of the Board are taken in the accounts at their purchase price in accordance with the orders contained in G.O. No. 10, Finance (Marine), dated 10th January 1935. Details of the face value, the purchase price and the market value of the securities held for the several funds are exhibited in Appendix X. It is observed that the total of the market value of the securities under each fund exceeds their purchase price.

4. (a) Statements of the accounts of the funds shown below and vested in the Board are appended to this report in the order prescribed in paragraph 3 of G.O. No. 10, Finance (Marine), dated 10th January 1935:—

(i) Revenue Account.
(ii) Renewals and Replacement Fund Account.
(iii) Accident Fund Account.
(iv) Revenue Reserve Fund Account.
(v) Capital Account (with two annexures).
(vi) Trust's Minor Accounts.
  (a) Provident Fund Account.
  (b) Deposit Account.
  (c) Sterling Loan Sinking Fund Account.
  (d) Landing Charges Account.
  (e) Biden Sailor's Home Charity Account.
(vii) Madras Pilotage Fund.
(viii) Madras Port Fund.

In these accounts with the exception of (vi) (*b*) the securities have been shown at their purchase price as ordered in paragraph 2 of G.O. No. 10, Finance (Marine), dated 10th January 1935.

(*b*) *Provident Fund Account.*—In G.O. No. 10, Finance (Marine), dated 10th January 1935, Government, in passing orders on the method of exhibition of the value of Government securities, held for the several accounts of the Madras Port Trust Board, directed that the balance sheet of the Provident Fund Account should show the Government securities at their market value. Consequent, however, on the amendment of section 25 of the Port Trust Contributory Provident Fund Regulations, approved by Government in G.O. Ms. No. 515, dated 23rd October 1935, the securities have been shown in the Provident Fund balance sheet at their purchase price.'

5. The outstanding balances of the several loans shown in Appendix IX to the Administration Report for 1935–36 have been checked with the balance in the books of this office.

6. *Engineering Accounts—Capital Account—Revenue Contribution to Capital.*—(*a*) The total expenditure on capital works during the year under report was Rs. 4,79,012 against the revised estimate of Rs. 5,18,636. There was a lapse of Rs. 39,624.

(*b*) Appendix V to this report compares the actual expenditure on the works with the budget and revised estimates of the year. Items 2, 3, 5, 6, 7, 10, 11, 12, 13, 14, 15, 16 were not provided for in the original budget but were included in the revised estimate of the year. The revised estimate figures were exceeded in respect of item 1—"Construction on the south side of harbour, of two screw pile jetties, etc." (estimate Rs. 3 lakhs), item 4—"Replacing the existing 15-ton steam crane on the south quay by a 10-ton electric portal crane"—(estimate Rs. 56,000) and item 16—"Provision of a new electric installation in the building leased to Royal Madras Yacht Club" (estimate Rs. 315). The excess in the case of item 1 is stated to be due to the adjustment of liabilities incurred owing to an accelerated programme of work towards the close of the year. The excess in the case of item 4 is due to non-adjustment of credits on account of the value of unserviceable materials returned from this work for auction. The excess in the case of item 15 is small. The excesses were admitted in audit with reference to the sanction of Government accorded in G.O. R. No. 549, P.W. (Marine), dated 30th May 1936. The lapse in the case of item 3 is stated to be due to the non-payment of the third instalment of dues to the contractors contrary to anticipations. In the case of item 10, the lapse represents the savings over the estimates. The lapse under item 13 was due, it is stated, to the non-completion of the work before the close of the year. The lapse under item 14 was due to the non-payment to the contractor within the year for work done. The lapses in the case of other items were small.

(*c*) *Work done for Revenue.*—The statement below compares the actual expenditure on revenue maintenance works with budget and revised estimates of the year. There was a small excess under IX—"Locomotive working" which was admitted in audit with reference to the sanction of Government accorded in G.O. R. No. 549, P.W. (Marine), dated 30th May 1936. The lapse under item XII—"water bought from city" is due to non-payment, before the close of the year, to the Corporation of Madras of their bill for water supplied to shipping during February 1936. The lapses under the remaining items are stated to be generally due to exercise of rigid economy in expenditure and savings effected in actual working.—

No work was finished during the year from the Accident Fund Account.

The budget estimate of Rs 1,42,650, was reduced to Rs. 85,838.

Items 5, 8, 9, 11 and 12 were not provided for in the original budget but were included in the revised estimate. The reasons for the large surrender from the budget estimates are explained as follows :—

Item 1.—The budget grant was modified to meet the probable outlay during the year.

Item 7.—The budget grant was modified to correspond to the amount of estimate sanctioned for the work.

Item 14.—The grant was surrendered in full due to the work having been postponed to 1936-37.

(e) *Suspense Accounts*.—There was a net debit to capital of Rs. 5,431 which was due mainly to the increase in the balance of stock.

The balances under the various heads on 31st March 1935 and 31st March 1936 are shown below :—

Year.	Stock purchases.	Stores in depôt.	Miscellaneous Public Works advances.	Work done for Revenue.	Work done for accidental funds.	Work done for Renewals and Replacement Funds.	Workshop suspense.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

1935-36 ..	6,355	75,040	8,541	69,580	..	4,702	—11,022

(*f*) *Stock purchases.*—The closing balance of Rs. 6,355 consists of 30 items which are all current.

(*g*) *Stores in depot (stock).*—The stock was verified by the Mechanical and Electrical Engineer and the Assistant Engineer from 26th July 1935 to 3rd August 1935. The discrepancies disclosed during verification were adjusted in the accounts for March 1936.

(*h*) *Miscellaneous Public Works advances.*—The closing balance is composed of the following items :—

	Rs.
(1) Work done and stores supplied to the Traffic Manager of the Trust	1,725
(2) Work done and stores supplied to the Deputy Port Conservator	4,023
(3) Sundry items	2,793
	8,541

Items (1) and (2) are inter-departmental adjustments which have been adjusted during May 1936.

(*i*) *Work done for Revenue and Renewals and Replacement Funds.*—The balances outstanding on 31st March 1936 were adjusted in the accounts for May 1936.

(*j*) *Workshop manufacture suspense.*—The balance of Rs. — 11,022 is made up of—

	Rs.
(*a*) Materials on hand	7,530
(*b*) Deduct arrears remaining unpaid	18,561
	— 11,022

Out of the sum of Rs. 7,530 representing the value of materials on hand, a sum of Rs 3,203 is approximately made up of—

	Rs.
(1) Coal	285
(2) Liquid fuel	2,421
(3) Metal	281
(4) Lime stone	216

The arrears of Rs. 18,561 relate to nominal muster rolls and suppliers' bills and do not call for any special remarks.

(*k*) *Deposits.*—The balance at the end of March 1936 was Rs. 41,569 against Rs 31,922 at the end of March 1935 and consists of current items only.

(*l*) *Tools and plant.*—The tools and plant articles were verified by the Port Engineer, Mechanical and Electrical Engineer and the Assistant Engineers on 13th October 1935 and the verification revealed only a few shortages. In one case, the cost was recovered while in the case of the others the articles were written off under the sanction conveyed in Board's Resolution No. 443, dated 14th February 1936.

(*m*) *Materials at site accounts.*—Materials worth Rs. 40,381 were at site of works on 31st March 1936 (as against Rs. 29,641 on 31st March 1935). These were verified by the Dredging Master and the Assistant Engineers from 31st March 1936 to 3rd April 1936, and the counting is stated to have disclosed no deficiency.

(*n*) *Balance on works accounts.*—

	Rs.
Due to contractors (withheld amounts)	116
Due from contractors (advance payments for work done) ...	2,50,580*

* This represents payment in two firms as shown below :—

	Rs.
(*a*) Advance payment on account of construction of two screw pile jetties, etc.	1,75,000
(*b*) Advance payment for the supply of Grab Hopper dredger	75,580

(c) *Cash and Treasury balances—Floating Cheques.*—The amount of uncashed cheques at the end of the year was Rs. 62,617-2-2 as against Rs. 21,110-0-0 at the end of March 1935. They were all cashed in April 1936.

7. The defects noticed in the course of audit were communicated to the Chairman in the monthly objection statements and audit notes and rectified, with the exception of a few items which are awaiting settlement in the usual course.

8. *Renewals and Replacement Fund.*—In paragraph 5 of the audit report for 1934–35, it was pointed out that the arrears of contribution due to this fund to end of 1934–35 was Rs. 57,819 and that the amount due for 1935–36 was Rs. 1,12,029. Consequent on the revision, with retrospective effect during the year, of the rates of contribution to the fund, the arrears of contributions due for the four years ending 1934–35 worked out to Rs. 72,127 and the amount due for 1935–36 to Rs. 1,19,902. The whole amount of Rs. 1,92,029 (Rs. 72,127 plus Rs. 1,19,902) has been contributed during the year.

9. (a) *Fraudulent removal of import goods from the Trust's custody without the payment of customs duty.*—During the year under review a fraud was committed on the Port Trust in the following circumstances :—

Under paragraph 3 of the rules defining the relations between the Collector of Customs, Madras, and the Madras Port Trust, imports should on no account be permitted to pass out of the Trust's control except under a 'pass order' issued by the Customs department on the relative bill of entry. In the event of packages being removed from the Trust's control without the payment of customs duty, the Trust ultimately has to make good the amount of the duty to the Customs department, if the Trust is not able to account for the goods (vide paragraph 5 of the rules quoted above).

In respect of a consignment of 148 cases of crackers, a customs broker obtained improper possession from the accounts department of the Port Trust of the relative harbour import application after this application had been presented to the Trust and after all the Trust's charges had been paid. Having got hold of the application, he had the column headed "compared with the bill of entry" on the application filled in through the agency of one of the clerks in the Trust's Traffic department and thus obtained delivery of the consignment without actually paying the Customs duty of Rs. 1,190 due thereon.

This was rendered possible by a proper verification of the bill of entry not having been made before the delivery of the goods.

The amount has, however, been subsequently recovered from the importer.

To eliminate the possibility of similar removals in future, it was suggested by audit that the import applications should be compared with the bills of entry by the Assistant Section Master before the goods are delivered and that a percentage of the bills of entry should be traced in the import applications by the Traffic Auditor before the bills of entry are returned to the Customs office. The Chairman has been giving a trial for three months to the suggestion.

(b) *Disputed claims.*—In paragraph 11 of the audit report for 1933–34 and paragraph 9 of the audit report for 1934–35, mention was made of two suits filed in the Madras High Court against the Madras Port Trust by two local banks. The suits arose out of the fact that the Port Trust failed to deliver to these banks certain bags of groundnuts which the banks claimed as having been pledged to them by the consignees (adjudicated as insolvents) but which had already been cleared from the Trust's custody by the consignees under a general bond of indemnity executed by them in favour of the Trust. It was mentioned in the last year's report that the High Court had decreed the suit instituted by one of the banks and that no decree had been passed in the other suit and that the decreed amount of Rs. 25,327-13-4 in respect of the former had been paid by the Trust. It was also mentioned that the Port Trust had put in its claims to the Official Assignee for preferential payments from out of the assets of the insolvent firm and that it had instituted legal proceedings for recovery of this amount against the person who had stood surety to the firm for the indemnity bond.

During the year under report a decree for Rs. 50,649-2-8 was passed in the other suit also, and the amount was paid by the Trust. The claims of the Port Trust for preferential payment, as a "local authority" under section 49 of the Presidency Towns Insolvency Act, against the estate of the insolvents vested in the Official Assignee were allowed by the High Court and the amounts paid by the Trust to the two banks were recouped to the Trust by the Official Assignee.

Government to whom the progress of the cases had been reported by the Chairman from time to time have recorded the papers in G.O. Ms. No. 1635, Public Works (Marine), dated 14th July 1936.

10. *Rates of working expenses to income.*—The following statement shows the percentage of working expenses to income during the last five years :—

Year.	Receipts.	Expenditure (excluding contribution to revenue and works).			Percentage of working expenses (excluding debt charges) to income.
		Debt charges.	Working expenses.	Total.	
	Rs.	Rs.	Rs.	Rs.	
1931-32	33,60,108	12,03,704	19,13,208	31,17,092	56·94
1932-33	29,66,534	12,01,012	19,19,935	32,01,547	64·69
1933-34	30,65,074	12,70,348	17,31,317	29,90,695	56·49
1934-35	33,53,964	9,62,935	17,30,699	27,01,734	51·55
			+ 1,13,171 (a)	+ 1,13,171 (a)	
			18,52,810	28,14,905	
1935-36	32,48 183	9,39,102	17,31,790	26,83,892	53·09
	— 1,50,000 (b)		(a) — 1,13,171	(a) — 1,13,171	
	30,98,183		18,08,619	25,70,721	

(a) A sum of Rs. 1,13,171 was trans-ferred from the Provident Fund Account to the credit of the Revenue Account in 1934-35 in accordance with rule 25 of the Provident Fund Regulations, but when that rule was amended retrospectively in 1936-36, this amount was retransferred to the credit of the Provident Fund Account in the current year. Necessary adjustments have been made here to show the actual working expenses during the years 1934-35 and 1935-36 for purposes of comparison.

(b) The contribution of Rs. 1,50,000 from the Port Funds to the Revenue Account has been deducted from the figure of gross receipts to arrive at the actual income of the Trust.

There has been a slight decrease in the percentage of working expenses (excluding debt charges) to the income during the year under review. The decrease occurred mainly under 2 (iv) Porterage, 3. Engineering and Maintenance, 4 (a) Pensions and Gratuities, 6 (i) Claims and 6 (v) Law Charges. The decrease under 2 (iv) Porterage is due to the fall in the import and export trade. The savings under all items but one (viz. Water brought from city) under 3. Engineering and Maintenance are stated to be due to the rigid economy exercised over the expenditure. The apparent increase of expenditure under 4 (iii) Pensions and Contributions—Board's Provident Fund in 1935-36—is due to the refund to the Provident Fund Account of a sum of Rs. 1,13,171 transferred from the Provident Fund Account to the Revenue Account in 1934-35 under the operation of rule 25 of the Provident Fund Account which was to some extent off set by the transfer to the Revenue Account of a sum of Rs. 14,568 being the profit from the sale of securities belonging to the Provident Fund Account—vide the amended rule 25 of the Provident Fund Regulations.

The savings under 6 (i) Claims and 6 (v) Law Charges were due to the recovery from the Official Assignee of certain payments made by the Trust in the previous year with reference to the disputed claim mentioned in paragraph 9 above.

11. (a) *Financial position.*—The statement below shows the receipts and expenditure of the Madras Port Trust during six years from 1930-31 to 1935-36 :—

Year.	Opening balance on 1st April	Receipts during the year	Total.	Gross expenditure during the year.	Amount transferred to capital for works and to reserve fund.	Net expenditure.	Closing balance.

1935-36 ..	6,99,000	31,48,000	38,15,000	32,00,000	6,22,000	26,54,000	6,08,000

NOTE.—The figures have been rounded to nearest thousands.

As compared with the year 1934-35, the receipts during 1935-36 show a decrease of Rs. 2,48,000 while the net expenditure has decreased by only Rs. 18,000 as shown by the figures in the Revenue Accounts of the two years.

The fall in receipts is stated to be partly due to the abolition of quay dues with effect from 1st April 1935 resulting in a reduction of about Rs. 1,72,000 in charges on trade passing through the Port.

If, however, the adjustment of the transfer of the sum of Rs. 1,13,000 referred to in foot-note (a) to paragraph 10 ante is taken into account, the savings in expenditure during the year as compared with that of the previous year would work out to Rs. 2,44,000.

(b) The value of the block capital of the Trust rose from about 3·942 crores on 31st March 1926 to about 4·627 crores on 31st March 1936, while during the same period, the outstanding loan liabilities including debts due to Government fell from about 188·6 lakhs to about 162½ lakhs. These figures include the *net* liability in respect of the Sterling Loan raised in England for the repayment of which a Sinking Fund has been created.

GOVERNMENT OF INDIA

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Bill* was introduced in the Legislative Assembly on the 7th September, 1930 :—

L.A. BILL No. 36 OF 1930.

A Bill to implement Article 28 of the Geneva Convention of the 27th day of July, 1929.

WHEREAS India was a signatory to the International Convention for the Amelioration of the Conditions of the Wounded and Sick in Armies in the Field, drawn up in Geneva and dated the 27th day of July, 1929;

AND WHEREAS it is necessary to provide for the discharge of the obligations imposed by Article 28 of that Convention in so far as provision has not been made by the Geneva Convention Act, 1911;

1 and 2 Geo. V, c. 20.

It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Geneva Convention Implementing Act, 1930.

(2) It extends to the whole of British India, including British Baluchistan and the Santhal Parganas.

Prohibition of use of imitations of emblem of Red Cross on white ground.

2. No person shall use for the purposes of his trade or business or for any other purpose whatsoever any sign constituting an imitation of the heraldic emblem of the red cross on a white ground formed by reversing the federal colours of Switzerland

*The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

Prohibition of use of emblem of white cross on red ground or imitations thereof.

3. No person shall use for the purposes of his trade or business or for any other purpose whatsoever the heraldic emblem of the white cross on a red ground, being the federal colours of Switzerland, or any sign constituting an imitation of that heraldic emblem.

Penalty.

4. Any person contravening the provisions of section 2 or section 3 shall be punishable with fine which may extend to one hundred rupees, and when such contravention is committed by a company, association or body of individuals, then, without prejudice to the liability of such company, association or body, every member thereof who is knowingly a party to the contravention shall be liable to the like penalty.

Previous sanction for prosecution.

5. No criminal Court shall take cognizance of any offence punishable under this Act except with the previous sanction of the Governor-General in Council or the Local Government.

STATEMENT OF OBJECTS AND REASONS.

Under the provisions of the Order of His Majesty in Council, dated the 24th October, 1910, extending the Geneva Convention Act, 1911, to India, the Secretary to the Government of India, Defence Department, has power similar to that vested in the Army Council, to authorize the use of the heraldic emblem of a red cross on a white ground formed by reversing the Federal colours of Switzerland at the words "Red Cross" or "Geneva Cross," and to institute proceedings with the consent of the Local Government against any unauthorized use of the emblem or title.

2. A new convention was drawn up in Geneva on the 27th July, 1929. India was a signatory to this Convention, which came into force, so far as His Majesty's possessions are concerned, on the 23rd December, 1931. Article 28 of the Convention requires the Governments of the high contracting parties to prohibit within five years—

(a) the use of the emblem or designation "Red Cross" or "Geneva Cross" by private individuals or associations, firms or companies, other than those entitled thereto under the 1911 Convention;

(b) the use, for commercial or any other purposes whatsoever, of any sign or designation constituting an imitation of the heraldic emblem of the red cross on a white ground formed by reversing the Federal colours of Switzerland;

(c) the use by any person, for commercial or any other purposes whatsoever, of the heraldic emblem of the white cross on a red ground, being the Federal colours of Switzerland;

(d) the use by any person, for commercial or any other purposes whatsoever, of the use of an imitation of the white cross on a red ground.

3. The Geneva Convention Act, 1911, as applied to India by the Order of His Majesty in Council, dated the 24th October, 1910, regulates (a) above, and, in view of the provisions of section 65 (2) of the Government of India Act, 1919, the Indian Legislature is not competent to pass any law affecting that Act. The Convention of 1929 may be supplemented, as far as (c) is concerned, by administrative instructions from the Government of India to their Defence Secretary, to the effect that he should not exercise the power to authorize the use of the emblem which was given him by the Order in Council of 1910 while the present Bill is intended to secure the prohibitions referred to at (b), (c) and (d) above.

SIMLA,
The 22nd August, 1930.

G. R. F. TOTTENHAM.

Mr. RAFI,
Secretary to the Government of India.

(Republished by order of His Excellency the Governor in Council)

Secretary to Government, Legal Department.
